TimeValue Software™

TValue™

Amortization Software Version 5

NEW USER ORDER FORM

The Industry Standard for Accurately Amortizing Loans, Computing Leases, and Solving Any Time Value of Money Calculation

TimeValue Software™ TValue™ amortization software is the industry standard in amortization software. Today, all of the Top 100 accounting firms and more than 500,000 financial professionals in more than 100 countries worldwide rely on its accuracy and flexibility. With TValue amortization software, you can solve any time value of money calculation in seconds. For computing loans with irregular payments, balloons, or rate changes, TValue amortization software is the perfect tool. No matter how simple or complex, TValue amortization software makes it easy to solve and report on calculations.

Accurately solve time value of money calculations and verify loan balances

- Solve for present and future values
- Analyze loan modification options
- Compute savings requirements for future goals
- Calculate the implicit rate of a lease
- Calculate officer notes with multiple loans and payments
- Determine internal rate of return (IRR) on stocks and other investments
- Solve for an unknown: interest rate, principal, payment amount, or term
- Determine year-end interest income or expense
- Create and print custom reports, APR disclosures, and amortization schedules
- Select any computation option including normal amortization (compound interest), U.S. Rule (simple interest), Rule of 78, Canadian amortization, and 360, 364, or 365 day year lengths
- Choose the compounding or rate period from the list of 13 options
- Account for any type of payment including interest only, principal first, amount or percent step, and more

TIMEVALUE software

Solve virtually any problem involving time and money

A. Compute any unknown

- Present or future values
- Loan or payment amounts
- Deposit or withdrawal amounts
- Interest rate
- Number of payments
- Remaining balance
- Balloon payment
- Discounted value

B. Account for any type of payment

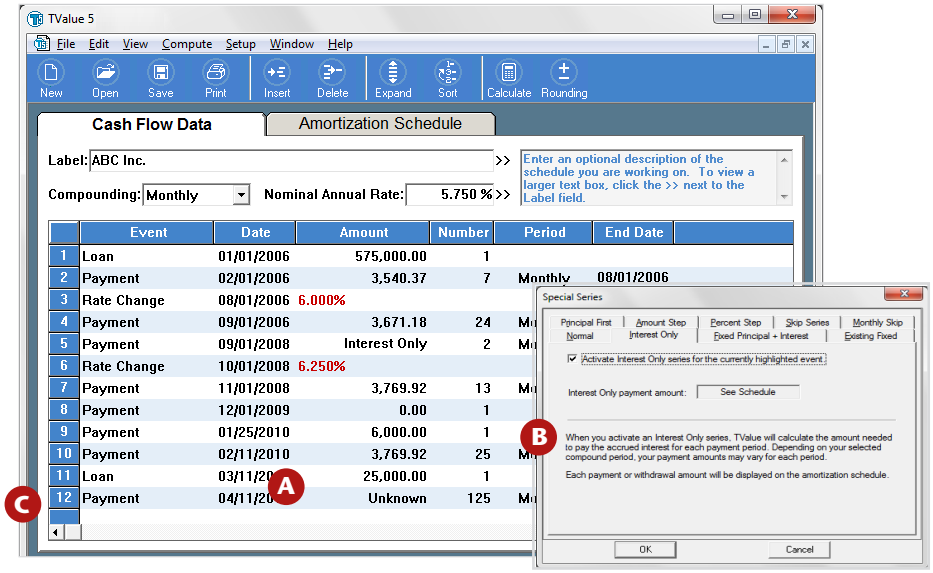
- Interest only
- Fixed principal plus interest
- Existing fixed
- Principal first
- Amount step
- Percentage step
- Monthly skip
- Skip series

C. Choose the appropriate computation option

- Normal amortization (compound interest)
- U.S. Rule (simple Interest)
- Rule of 78
- Canadian amortization
- 360, 364, or 365 days per year
- Daily, exact days, weekly, bi-weekly, 4-week, monthly, half-month, 2-month, 4-month, quarterly, semi-annual, annual, and continuous

D. Create & print custom reports and amortization schedules

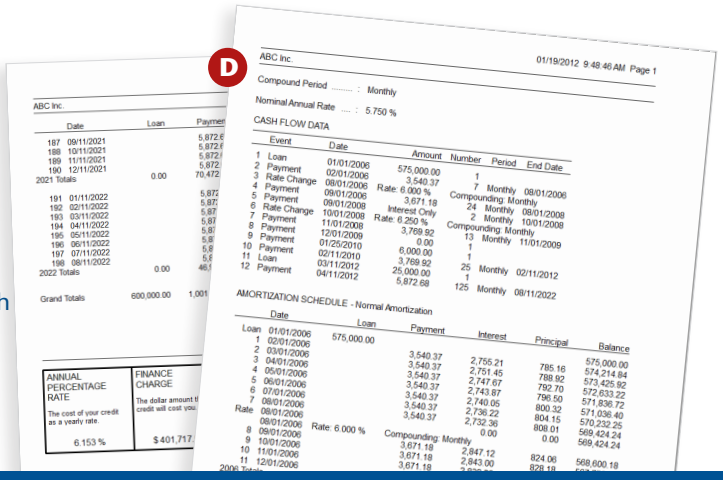
- Document irregular payments, balloons, and rate changes
- APR Truth-In-Lending disclosures
- Create headers and footers
- Customize event names
- View totals at selected frequency by calendar or fiscal year-end
- Export to Microsoft Excel or Word with one click



Benefits of TValue software over Excel

- **Faster, more accurate, and easier to use**; only a couple of line items needed to structure a deal or analyze a return
- **Calculations are error free** as TValue software is based on embedded algorithms, not writing formulas; if the amounts and dates are right, the calculation is right
- **Generate amortization schedules in seconds**; documented schedules are generated for viewing, exporting, and printing immediately
- **Quickly solve for any "what if" calculations**; learning how is simple and easy
- **Logic to handle simple to the most complex calculations**
  - » Interest only, rate changes, balloons
  - » Various year length options (360, 364, 365)
  - » Simple and compound interest
  - » Various compound or rate period methods
  - » Irregular or advance payments
- **Generate APR** - Truth in Lending (Reg. Z) disclosures
- **One year money-back guarantee**; all products are backed by a one year unconditional money-back guarantee

"TValue amortization software plays an important part in my business. My clients expect flexibility and precision and TValue amortization software helps me deliver!" - **R. Smith**



System Requirements:

- Supports Windows XP and above (including Windows 7 32-bit and 64-bit), and Windows Server 2008 and 2003, and Terminal Services
- Citrix is being used successfully by TimeValue Software customers with no known issues in this environment
- At least 10MB RAM and 5MB disk space
